

Quality since 1920

Heritage

Barlow Tyrie is renowned the world over for high quality outdoor leisure furniture.

An international reputation based on tried and tested furniture construction, desirable designs and excellent customer service has made Barlow Tyrie synonymous with style and quality.

Founded in 1920, Barlow Tyrie is the world's oldest manufacturer of teak leisure furniture and has more recently extended its range to include furniture in stainless steel, powder-coated aluminium and hand-woven synthetic fibre. Barlow Tyrie combines form and function with manufacturing knowledge and experience to create pleasing designs with good ergonomic performance that make your life outdoors more comfortable.

Barlow Tyrie is committed to using the highest quality materials, whether it be 'Grade A' plantation grown teak, 316 'marine grade' stainless steel or the best UV resistant cushion fabrics, quality is paramount. Being the world's oldest teak garden furniture manufacture does not automatically make us the best but striving to be the best has made us the oldest. This ethos has kept us in business for over 95 years and that's why we say; *"Barlow Tyrie – Quality since 1920"*.

Our commitment to produce the finest outdoor leisure furniture by combining good design with traditional yet refined construction methods has kept Barlow Tyrie at the forefront of this rapidly changing industry. You can be confident when choosing Barlow Tyrie that you are selecting furniture made to the highest standard, of the finest materials and please be assured that our customer service and aftercare match the excellence of our furniture.

Stainless Steel Collection

A stylish collection that makes a great addition to any garden. With lots of options it is easy to create your own elegant outdoor area.

We use two grades of stainless steel; 316, known as 'marine grade' and 304, more commonly used in garden furniture. Both 316 and 304 stainless steel are hard-wearing and suitable for inland locations whilst 316 is best for coastal and other areas with high humidity. Please note that all outdoor furniture including stainless steel requires some cleaning and maintenance. If you have any questions about the grade of stainless steel that is best suited to your area then please contact your supplier or our customer service department.

Product care:

Although made to withstand the rigours of an outdoor environment, regular care and maintenance is required to preserve the fine appearance of your furniture. We offer care products for all the furniture we supply that are easy to use and very effective. An annual or twice yearly maintenance regime will be more than adequate in most instances and maintain your furniture in prime condition; however in coastal and chlorinated environments we recommend occasionally rinsing your furniture with fresh water.

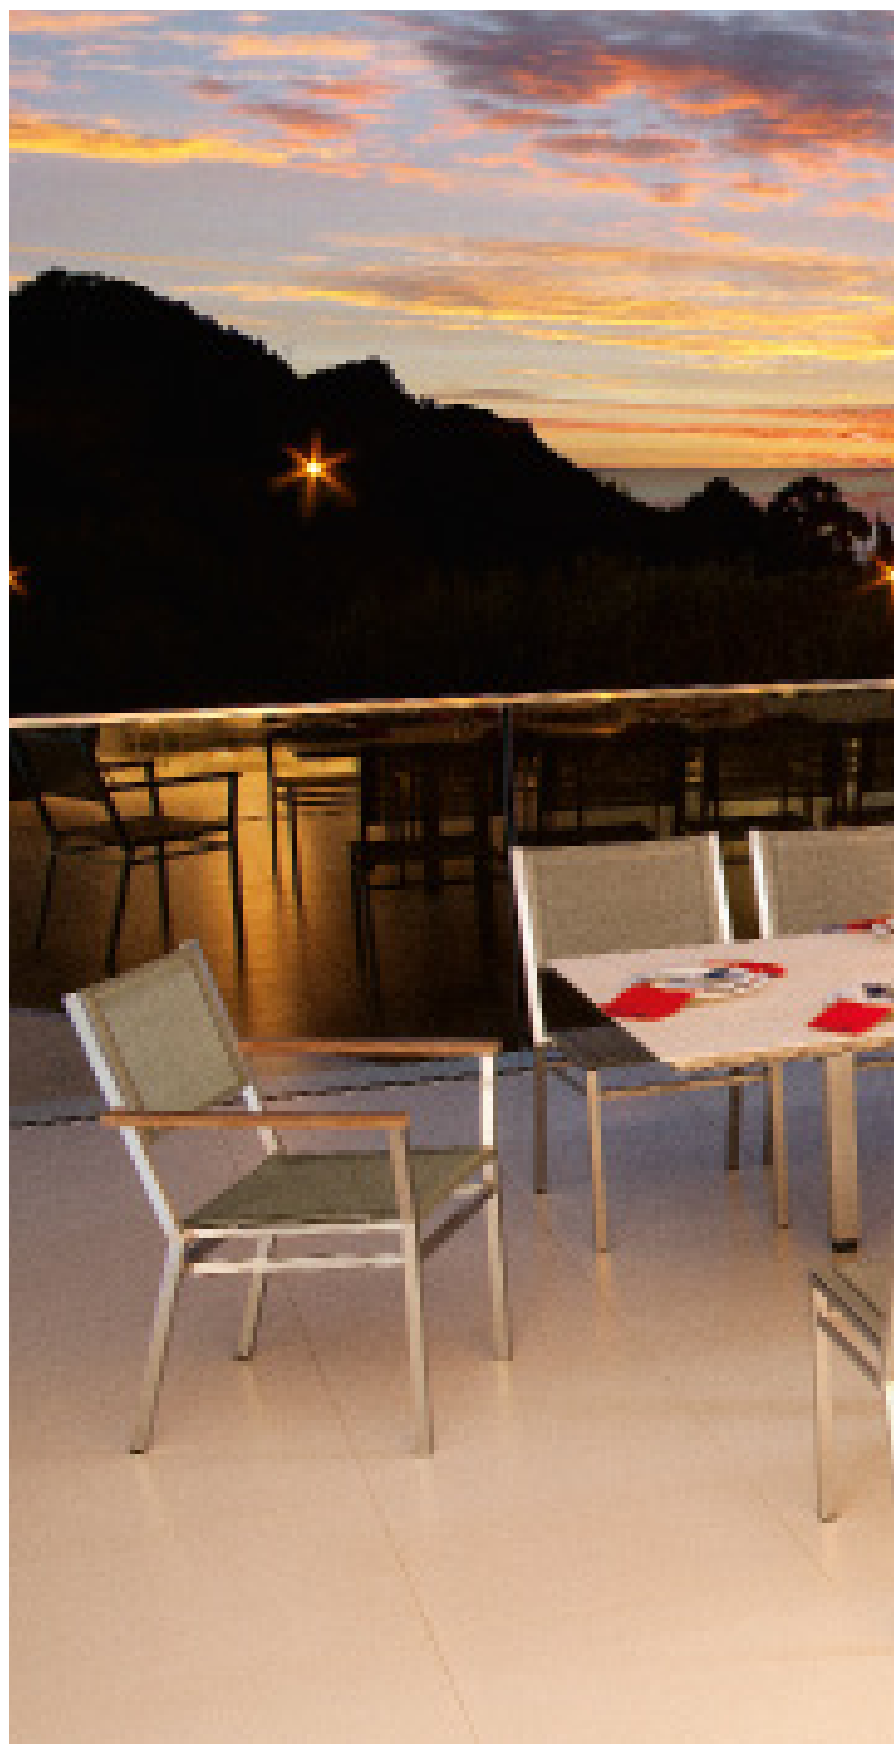

See page 198 for Barlow Tyrie care products and page 184 for cushion fabrics or online at: www.barlowtyrie.com/

- 6** Equinox
- 24** Mercury
- 30** Quattro

Equinox

The Equinox range offers a large selection of contemporary designs, a perfect addition to any modern living space. The collection includes a choice of table top materials, stacking furniture and easy to clean waterproof fabrics.

Ceramic table tops are made using a stain proof, colour-fast, Italian 'high-fired' tile. Whilst being extremely practical and low maintenance they are scratch resistant and add sophistication to your outdoor area.

High Pressure Laminate (HPL) table tops are made from a mix of cellulose and resin, bonded together under high pressure. This material was first used to clad the outside of buildings and is formulated for use outdoors. HPL offers a contemporary look with ease of cleaning.

Teak table tops offer a more traditional and warm appearance to this contemporary collection.

Equinox features:

- 316 'marine grade' stainless steel
- Textilene® slings – strong, durable and mildew resistant
- Minimum of maintenance
- Stacking chairs and sun loungers (can be mixed with the Mercury range)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Mercury

The Mercury chair offers a higher back than our other stainless steel chairs. It has a sprung backrest making it extremely comfortable for long lazy afternoons outdoors. It combines 316 'marine grade' stainless steel with Textilene® fabric to great effect and there is a choice of either teak or powder-coated aluminium inserts on the armrests.

The modular deep seating collection gives you the opportunity to create a bespoke design that ideally fits your own living space. Using the best waterproof fabric the outdoor industry has to offer, Sunbrella® 'Rain', the Mercury deep seating collection is both comfortable and soft to the touch.

The Mercury dining table tops are acid etched tempered glass with a matt finish that is easy to clean.

Mercury features:

- Modular deep seating system uses Sunbrella® 'Rain' V77 waterproofed fabric for the cushions
- Textilene® slings – strong, durable and mildew resistant
- Minimum of maintenance
- Table tops are acid etched tempered glass with a matt finish in a choice of three colours (Mercury products can mix and match with the Equinox range)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Quattro

The Quattro range is made from 304 stainless steel, preferably for use in non-coastal areas. Coloured aluminium armrests and Textilene® slings make this range both stylish and comfortable.

The Quattro dining tables use High Pressure Laminate (HPL) tops that are easy to clean and will not fade in strong sunlight.

The sun lounger is stackable and uses an innovative 'infinity' back support that supports the backrest in any position from flat to upright.

Quattro features:

- 304 grade stainless steel
- Textilene® slings – strong, durable and mildew resistant
- Minimum of maintenance
- Table top has dark 'slate' grey coloured High Pressure Laminate (HPL)
- Stacking chair and sun lounger with coloured aluminium armrest inserts

Teak Collection

We make our teak furniture using first grade plantation grown teak (Tectona Grandis) and marine grade solid brass or stainless steel fittings.

We design our teak furniture to allow you to mix items from different ranges, which gives the greatest flexibility in convenient use and visual effect.

Our range includes many award winning designs that are considered classics within the garden furniture world.

Product care:

Barlow Tyrie teak furniture can be left out all year round however as part of a maintenance programme we recommend the use of 'Barlow Tyrie Teak Cleaner' (4TC) each spring to prepare your furniture for the season.

If untreated, teak will weather to a soft silver grey patina. If you wish to slow the weathering process and retain the golden teak colour then apply 'Barlow Tyrie Teak Colour Guard' (4TCG) before the weathering process begins.

See page 198 for Barlow Tyrie care products and page 184 for cushion fabrics or online at: www.barlowtyrie.com/

Adirondack

Originating from the Adirondack Mountains of New York State, this style of furniture has become America's most recognised outdoor chair. This Adirondack is a classic piece in our teak collection; it has a simple rustic design that is extremely comfortable. This deep seating armchair can be combined with a footrest for optimum lounging comfort; perfect for lazy afternoons in the garden.

Adirondack features:

- Extra wide armrests and solid brass fittings
- Contoured seat for comfort
- Rounded high backrest
- Additional matching footrest and side table
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Apex

The Apex range consists of two beautifully crafted rectangular dining tables, constructed from large sections of fine teak wood that give a contemporary, clean and solid line.

The extending dining table will seat up to ten when closed and 14 when the double butterfly extension system is used. The 210cm table will comfortably seat up to eight people.

Apex features:

- The extending table has two specially balanced twenty-four inch wide leaves which are stored under the table top and move effortlessly into position using a butterfly action
- Solid construction
- Extending table leaves utilise solid brass hardware including concealed barrel hinges
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Ascot

The Ascot is a traditional and elegant range of folding furniture with a pleasing simplicity of design that allows its use with many of our teak ranges.

Extensive use of marine grade brass ensures that the furniture folds easily as well as being strong and sturdy. The backrest of the chairs are dished for extra comfort and the highback recliner offers a choice of four different positions, making it ideal for both dining and relaxing. The range is supplied fully assembled and can be used with or without a seat cushion.

The range includes a folding table designed to seat up to four in comfort.

Ascot features:

- Folding chairs have brass locking mechanisms for safety
- Highback recliner chair available that has four ergonomic seating positions
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Avon

The Avon collection is a blend of soft curves and clean simple lines, lighter in scale and somewhat contemporary.

The collection includes deep seating, low tables, a dining armchair and dining tables. The understated appeal of Tim Fenby's designs will ensure their enjoyment for many years to come.

Avon features:

- Designed by Tim Fenby
- Assortment of different sized dining tables and coffee tables
- Distinctive swivel rocker armchair that rotates 360 degrees
- Deep seating range is very comfortable due to the generous size
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

weight: 21kg – 46lbs

assembly required: Yes

Capri

Capri sun loungers have been gracing pool sides, decks and terraces of the finest residences and hotels for many years and remain as popular today with a clean uncluttered design that enhances any setting. There are three Capri designs that all have four back positions but offer other variations that include wheels, an adjustable leg rest and a pull-out side table.

The Capri 'Base' is a simple teak lounge with an adjustable backrest. Using our unique brass connecting clips, a number of these loungers can be linked together side by side and end to end to make a continuous lounging area of any size.

The Capri 'Standard' is a classic sun lounge with a four position backrest and wheels for easy positioning. There is an optional clip on drinks tray for added convenience.

The Capri 'Ultra' is, as the name suggests, top of the line with a four position backrest, wheels, arms, a three position adjustable leg-rest and a pull-out side table that can be used to either side of the lounge as required.

Capri features:

- Three sun loungers, all offering four possible positions for the backrest
- Rubber tyred teak wheels, adjustable leg rest or pull-out side table
- Solid brass hardware and fittings
- Optional clip-on side tray available for the Capri Standard only
- Optional brass clips available for connecting two or more Base sun loungers side by side
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Chesapeake

An extensive new collection that includes deep seating, low tables, dining chairs and tables. The Chesapeake design marries traditional scrolls with rolled edges, design elements that feature throughout the range. The range of tables include appealing 'boat-shaped' rectangular dining tables.

Chesapeake features:

- An elegant traditional collection in solid teak
- Innovative swivel rocker that spins 360 degrees and rocks
- Nylon glides
- High backrests in deep seating range
- Rectangular dining tables feature 'boat-shaped' table top
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Commodore®

This classic steamer chair is inspired by the golden age of the transatlantic liner. This superbly designed product has a backrest that adjusts to four positions, a removable footrest and is optionally available with a longer footrest and wheels for easy positioning. The backrest is conveniently adjusted by lifting the arms whilst seated.

The Commodore® recliners use solid cast brass fittings with ergonomically shaped components that give a high level of comfort.

Commodore features:

- Reclines to four positions
- Detachable footrest
- Marine quality solid brass fittings
- British design award recipient
- 10-year guarantee for residential use (see warranty)

Crichton

The Crichton serving trolley makes your entertaining both stylish and a pleasure with two removable trays and a tiled work surface. A holder for wine glasses and a bottle compartment allow the trolley to be moved over uneven surfaces without the fear of breakage. A pair of the wheels are mounted on casters made in cast brass that rotate through 360 degrees making the trolley really easy to manoeuvre.

Crichton features:

- Marine styled solid brass castings
- Two removable trays provided
- Easy to maneuver
- 10-year guarantee for residential use (see warranty)

2DR18_1HOAS.502 (x8)

Edinburgh

The Edinburgh table is from our traditional range and is a 'classic' in any outdoor setting. The fine slatted design ensures it works well with all of our teak collection.

Edinburgh features:

- Classic style looks good in all settings
- Strong construction with a thick teak top and criss-cross leg design
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products.

Felsted

The Felsted design is similar to that of our Glenham only lighter in weight.

The range consists of an armchair that can be used with any of our traditional teak tables and a classic bench. These products can be carved with an inscription or be fitted with a bronze plaque. The range includes a footstool that can also be used as a small side table or as an extra occasional seat.

Felsted features:

- Medium weight for easier maneuverability
- Classic bench which will seat two people comfortably
- No exposed hardware on footstool makes it perfect for use in showers and saunas
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Glenham

The Glenham is an original Barlow Tyrie design that is widely regarded as the typical English garden seat. Our range includes circular and hexagonal tree seats, modular circular seating, corner seats together with the more normal seats and armchair.

Classic design and robust construction make the Glenham range suitable for use in public spaces as well as private gardens.

Glenham features:

- Large range of classic seating options
- Suitable for carved memorial inscriptions and bronze plaques
- Perfect for use in public spaces
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

height: 90.1cm – 35 1/2"

weight: 46kg – 101lbs

seat height: 41.1cm – 16 1/8"

other items of interest: Two half sections are required to make a complete tree seat. Can be supplied as a single half section if required

Haven

A luxurious range of deep seating furniture that features a high backrest for optimum comfort and afternoon naps. This collection is modular in construction allowing the freedom to create the configuration you require whilst adding a contemporary look to your living space. The armchair backrest adjusts to three positions to give maximum comfort and the collection is completed with conversation height tables that provide relaxed entertaining from the comfort of the Haven sofa or armchair.

Haven features:

- Armchair with three adjustable positions for the backrest
- Ottoman and conversation tables available
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Horizon

The Horizon range is a stylish collection of furniture with simple, clean lines offering a modern feel to any living space. The stacking armchair is available with either a teak or Textilene® seat and back. Textilene® is offered in a choice of colours and gives comfort without the need for a cushion. Folding side and carver chairs use a locking mechanism for safety, are light enough to be carried yet strong with a solid feel.

The award-winning sun lounger has beautiful flowing lines and a slim silhouette. It is functional as well as beautiful with hidden wheels set into the back legs and the option of adding our lounger sunshade. The Horizon sun lounger graces the grounds of many exclusive hotels and private residences around the world.

Horizon features:

- Folding side and carver chairs have a frame locking mechanism in place for safety
- Sun lounger has hidden wheels in the back leg for ease of mobility
- Armchairs are stackable
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Linear

As the name suggests a design based on strong lines, simple yet beautiful.

Architectural qualities in the deep seating are echoed in the fine lines of the dining tables. Tables range in size from 90cm square up to a stunning 175cm square that seats eight in comfort. Emphasised mitred corners and finger joints add design detail to the collection.

The generous deep seating is offered in a choice of armchair, two and three-seater sofas. The ottoman is easily big enough to be used as a standalone seat. The collection is completed by a selection of compatible coffee and end tables.

Linear features:

- Solid traditional teak construction
- Mitred detailing shown on the corner joints
- Strong architectural lines
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

1MIA (all furniture has an interior finish)

Monaco

The Monaco is an elegant design which features extensive use of shaped components. This collection of solid teak furniture has an armchair and side chair with gently curving shapes, contoured backs and seats that offer comfort without the use of cushions. Folding arm and side chairs are perfect for the weekend retreat or when extra guests arrive.

The Monaco sun lounger has folding arms, either pull-out side table and wheels, all reflecting the attention to detail of this very popular range. The backrest can be adjusted to four different positions including completely flat. Optional cushions are available.

The Monaco range also includes seats in two sizes, a swing, a selection of dining tables and an assortment of coffee tables.

Monaco features:

- Armchair and side chair have extensive use of shaped components
- Folding chairs feature contoured back and seat, polished brass handle to aid folding and an easy to use brass safety lock
- Sun lounger features a built-in pull-out table which can be used on either the left or right side and large rubber tyred teak wheels
- Extending dining table is available
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Monterey

The Monterey Range is Barlow Tyrie's interpretation of mid-century modern design. It is an elegant set of furniture built using quality materials, combining teak, Italian ceramic, and refined traditional construction methods.

The award-winning, sculptured armchair uses solid teak for the frame with braided all-weather cord for the seat and back, combining to create a stunning piece of furniture. The cord is woven from Olefin (a key feature is its light fastness) and Textilene® making it rugged with a soft hand.

The dining tables feature an easy to clean Italian ceramic table top in 'Oxide' colour. Glossy variations on the top add depth and texture. Monterey tables are available in three sizes seating from four to ten comfortably, depending on the size chosen.

Monterey is a truly impressive set of furniture for your enjoyment and satisfaction.

Monterey features:

- Over two-hundred feet of Textilene® cord is used for the seat and backrest
- Solid teak using refined traditional construction methods
- Interpretation of mid-century modern design
- Dining tables combine teak and powder-coat tubular aluminium with 'high-fired' Italian ceramic material creating a beautiful, enduring design
- Italian ceramic table tops are 'high-fired' baked at temperatures exceeding 2200°F/1204°C, making them 'rock-hard' and extremely resilient
- 10-year guarantee for residential use (see warranty for Italian ceramic)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Newport

The Newport derives its name from the summer playground of America's early millionaires. Newport was top-notch, high quality – the best. We believe our rocker is all that. It is also one of the most comfortable rocking chairs you will find.

Newport features:

- Dished back for comfort with a high back for support (and napping)
- Shaped seat slats for comfort. Can be used with or without cushions
- Shaped arms for optimum support
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products, follow instructions for usage.

Seat Cushion

Reims

The classically designed Reims Refreshments Chest is based on the traditional lead-lined wine coolers found in 18th and 19th century. Designed to accommodate twelve bottles of Champagne plus the appropriate amount of ice, however other refreshments are always welcome!

Reims features:

- Inner liner of polypropylene
- Melted ice is drained using the solid brass tap at the rear of the chest
- Turned solid teak handles with solid brass fittings
- The lid is supported by sliding brass stays
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products, follow instructions for usage.

height: 60cm – 23 5/8" (38cm – 15")

weight: 35kg – 77lbs

other items of interest: 400774 Cover for Reims Refreshments Chest

Rothesay

The mighty Rothesay seats are the heaviest in the collection. Suitable for gardens, streets and commemorative locations, the rails can be carved with a message or fitted with a bronze plaque.

The generous proportions of the armchair make it perfect for larger people or for use in setting where a bold visual statement is required. The 240cm is the longest seat we currently make but if you require something larger then contact us for a quote.

Rothesay features:

- One of our oldest designs, made since 1920
- Our heaviest seating design
- 'Estate' armchair proportions bring to mind a monarch's throne
- Suitable for carved memorial inscriptions and bronze plaques
- Security mounting options available
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

For further details, please view our products online or see your nearest stockist:

Safari®

The Safari® is so named as it closely resembles the side-folding camp chair used by explorers and those adventurers on safari expeditions. The chair is light, comfortable and convenient to use. It is a good choice where frequent storage is a requirement or to put in the car on a day out. We use awning-weight Sunbrella® fabric in the seat and back that is colour fast and extremely weather resistant. The optional clip-on tray for your Safari® chair will hold a drink or book.

The Safari® folding table will be a great choice when more temporary table top space is required, such as a drinks table, but it is just as handy for lunch on the terrace.

Safari features:

- Side-folding director's chair used over many years by picnickers, campers and on expeditions
- Comfortable and convenient to use
- Features solid brass hardware and fittings
- Chair is lightweight, always a good choice where frequent storage is a requirement
- Useful clip-on tray for your Safari chair

- Table will fold completely flat and at 8kgs (17 lbs) it is easy to move around
- 10-year guarantee for residential use (see warranty for awning-weight slings)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

For further details, please view our products online or see your nearest stockist:

Sissinghurst

The Sissinghurst is our interpretation of a design by the much respected Edwardian architect Sir Edwin Lutyens, who designed the seat for the grounds of Sissinghurst castle. The most distinctive of seats, with flowing curves and curls, it is often used as the focal point in a variety of garden styles and settings. An imposing seat that will add elegance to your leisure hours all year round.

Sissinghurst features:

- Design respects the original by Sir Edwin Lutyens
- Our most distinctive of garden seats – an ‘iconic’ design
- Elegant flowing curves and curls
- 10-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Stirling

The Stirling extending table is a superb oval design, very traditional with a heavy table top and distinctive shaped legs and undercarriage that connect in a cross frame giving the table extreme stability.

Stirling features:

- Parasol can be used through the table in the closed and extended positions
- Brass locking mechanism
- Dual 'butterfly' extending leaves store under the table top
- Extended table will comfortably seat 10
- 10-year guarantee for residential use (see warranty)

Waveney

The Waveney is an elegant design with gently curving top rail, shaped armrests and turned tapering front legs. This design captures the essence of traditional English garden seating from the beginning of the last century.

The Waveney armchair and seat have beautifully turned front legs and an arching top rail makes this a lovely traditional English style.

Waveney features:

- Elegant design with gently curving top rail
- Turned tapering front legs
- Traditional English garden seating
- 10-year guarantee for residential use (see warranty)

Rustic Teak Collection

Our Rustic Teak Collection is a new design concept for Barlow Tyrie which has very old roots. We have sourced first-grade plantation grown teakwood for many decades and our standard of quality in design and craftsmanship is well known. The Rustic Collection is, however, a slight departure for us. Teak with blemishes, which we cut away and discard for our standard range, is used here to create a look that is often referred to as 'farm house' or 'barn wood' in America. It is the use of this timber, with its grain swirls, knots, insect holes and blemishes that gives this collection the rustic look which is growing in popularity.

Laminated using an adhesive that is designed for outdoor use, the blemished wood is exceptionally strong. 'Rustic' is also a smart environmental way for us to utilise what would have been discarded.

Product care:

See page 198 for Barlow Tyrie care products, follow instructions for usage. For further details, please view our products online: <http://www.teak.com/english/care-products-range.shtml>

See page 184 for cushion colours using Sunbrella® fabrics on our Barlow Tyrie Collections or please view our products online at: www.barlowtyrie.com/

For further details, please view our products online or see your nearest stockist:

<http://www.teak.com/english/neareststockist.php>

The Titan Range is from our new 'Rustic Teak' Collection. The range is available in two versions, rustic teak top and frame or rustic teak top on a black powder-coated aluminium frame. Backless benches are also available in both versions.

The name 'Titan' represents this heavy, robust design with its grand dimensions. The range includes an extremely comfortable stacking armchair with shaped rustic teak back and seat on a black powder-coated aluminium frame. The backless bench and dining table are available in two complimentary sizes. Titan undoubtedly makes a stunning visual statement.

Rustic Teak Collection

See other Ranges in the Rustic Teak Collection – refer to page:

Rustic Teak Collection

120 Titan

Titan

The Titan Range is from our impressive 'Rustic Teak' Collection. The range is available in two distinct versions, rustic teak for both table top and frame or rustic teak top on black powder-coated tubular aluminium frame. Backless benches follow suit in either all teak or rustic teak with black aluminium.

The name 'Titan' suits this robust design with its grand dimensions. The range includes an extremely comfortable stacking armchair with shaped rustic teak back and seat on a black powder-coated aluminium frame; backless benches and dining tables are available in two sizes. Titan will undoubtedly create a stunning visual impression in any location.

Titan features:

- Rustic 'farmhouse' look
- Robust design
- Solid construction
- The all-teak design features exposed brass frame hardware
- 5-year guarantee for residential use (see warranty)

Aluminium Collection

Barlow Tyrie use an environmentally friendly process to clean and etch the aluminium before applying a high quality powder-coat, which combines a stunning visual effect with long service and the minimum of maintenance. You can enjoy dining and relaxing outdoors in the summer months with our low maintenance tables and chairs; a stylish addition to any garden or patio.

Product care:

Barlow Tyrie furniture can be left out all year, however we supply covers and suggest your furniture be cleaned and maintained with 'Barlow Tyrie Powder-Coated Aluminium Cleaner' (4AC). To keep your furniture fabrics and Textilene® slings in optimum condition we recommend using 'Barlow Tyrie Textilene® & Woven Non Foam Cleaner' (4WTC). Textilene® fabric slings used on our Teak, Stainless Steel and Aluminium Collections combine colour fastness, comfort and weather resistance.

See page 190 for frame colours and Textilene® fabric slings used on our Barlow Tyrie Collections and page 184 for cushion fabrics or online at: www.barlowtyrie.com/

Aura

A modern, lightweight yet elegant collection that combines powder-coated aluminium frames, teak table tops with aluminium inlay and the stackable lounge and armchair are accented with teak armrests. A choice of frame and sling colours are available – see colour combinations. The Textilene® seat and back is durable and comfortable, without the need for a cushion. The range offers a stacking armchair, deep seating chair and sun lounge, high dining table and chair as well as several choices of dining tables seating from four to eight people.

Aura features:

- Made from lightweight 'virgin' tubular aluminium for strength
- Requires the minimum of maintenance
- Tough, durable powder-coated paint finish
- All-weather Textilene® brand sling for long life and low maintenance
- Contemporary and modern design
- Dining table tops have powder-coat aluminium inlay across and around the parasol hole

See page 190 for frame colours and Textilene® fabric slings used on our Collections.

Cayman

The Cayman range is perfect for any living area where low maintenance and relaxation are requirements. A contemporary design, combining powder-coated aluminium frames with comfortable Textilene® slings on the stacking armchair and sun lounger with no need for cushions. Cayman dining tables feature our hard-wearing and non-staining 'high-fired' Italian ceramic table tops that require only a wipe to keep clean.

Cayman features:

- Stylish contemporary furniture
- Lowest maintenance required
- Comfortable without the need of a cushion
- Hard-wearing, all-weather Italian ceramic table top
- Optional sunshade available for lounger
- Sun lounger has four possible positions for the backrest including completely flat
- Sun lounger has small wheels hidden in the back legs to aid in moving and positioning

See page 190 for frame colours and Textilene® fabric slings used on our Collections.

Woven Collection

Our woven ranges have all been designed for minimal care and maintenance with the synthetic material hand-woven over a powder coated aluminium frame. The finished product is strong and highly resistant to the rigours of an outdoor environment. Although designed for the life outdoors, we have found many customers purchase our woven products for use inside as well, which is perhaps due to our well-respected designers having a background in interior furniture design.

From the transitional design of Savannah to the highly original weave design of the Laura Kirar collection, we are confident you will find something to suite your space indoors or out.

Product care:

Barlow Tyrie furniture can be left out all year, however we supply covers and suggest your furniture be cleaned, as part of a maintenance programme we recommend the use of 'Barlow Tyrie Textilene® & Woven Non Foam Cleaner' (4WTC), to keep your furniture in optimum condition.

See page 198 for Barlow Tyrie care products and page 168 for cushion fabrics or online at: www.barlowtyrie.com/

Arizona

The Arizona range was designed for Barlow Tyrie by Vladimir Kagan. Arizona is a cubic design of modular seating that allows the owner to configure an arrangement that suits their individual requirement.

The range consists of various seating modules: armchair, large and small ottoman, left and right arm and armless sections. There are, of course, coffee and end tables to compliment your arrangement.

Arizona features:

- Designed by the renowned New York furniture designer Vladimir Kagan
- Modular deep seating allows for creative and personal arrangements
- Solid core weave material is highly resistant to fading
- Cushions use Sunbrella® fabric, made from a durable, 100% solution-dyed acrylic fibre
- Minimum of maintenance
- 5-year guarantee for residential use (see warranty for cushions)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Woven Collection

Vladimir Kagan is one of today's most enduring designers of modern furniture with a career that has spanned over sixty years.

He is recognised as one of the most important furniture designers of the 20th Century, his early designs from the forties, fifties and sixties have become icons of Modernity and reference points for all designers.

His creativity has been responsible for inspiring a whole generation of designers. Kagan designs are avidly collected by connoisseurs and museums world wide.

Barlow Tyrie is proud of this exceptional range of furniture which is the result of close collaboration with Vladimir Kagan.

601361_601364_601367_601366_601360_6013661_6013662

Dune

This very stylish design was created by Vladimir Kagan and draws its basic concept from his fluid interior furniture designs of the late nineteen-forties and fifties. It is considered contemporary in appearance today and yet 'Classic Kagan'.

The daybed and ottoman are a set and are supplied with a thick base cushion. Scatter cushions for the back are available in various sizes and quantities depending on preference.

Dune features:

- Designed by the renowned New York furniture designer Vladimir Kagan
- Bed and ottoman push neatly together
- All-weather solid core synthetic weave highly resistant to fading
- Minimum of maintenance
- Cushions use Sunbrella® fabric, made from a durable, 100% solution-dyed acrylic fibre
- 5-year frame guarantee for residential use (see warranty for cushions)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

For further details, please view our products online or see your nearest stockist:

seat height: 35.5cm – 14"

other items of interest: 400700 Cover for Dune Daybed & Ottoman

requires: 1 x 800035 Dune Daybed Seat Cushion (Base plus all 5 Scatter Cushions)

602700_602701 (x2)

Savannah

This distinctive range of furniture was designed by Vladimir Kagan. In Savannah he mixes classic colonial-styling with deep sweeping curves creating a very transitional look – inside or out.

The Savannah range consists of numerous pieces: arm and side dining chairs, dining tables, deep seating chair, ottoman, two- or three-seater settees together with complimentary side and coffee tables. The deep seating is designed with a high back for additional comfort.

The sun lounger with its almost hidden rear wheels and side table are a beautiful addition to the private spa as well as around your pool. Either way, dining or relaxing the Savannah range brings an exotic feel to any location.

Savannah features:

- Designed by the renowned New York furniture designer Vladimir Kagan
- Transitional design
- Tempered glass on all table tops
- Minimum of maintenance
- All-weather solid core synthetic weave highly resistant to fading
- Cushions use Sunbrella® fabric, made from a durable, 100% solution-dyed acrylic fibre
- 5-year frame guarantee for residential use (see warranty for cushions)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Kirar

New York based designer Laura Kirar has designed home furnishings for some of the top names in the American home furnishings industry. Her collection for Barlow Tyrie is her first foray into the outdoor category. Drawing design inspiration from Japan, Laura has created an original Triaxial® weave pattern.

As with all Barlow Tyrie woven ranges, the material is hand woven over a powder-coated aluminium frame. Laura's furniture designs are comfortable and versatile with deeply sumptuous seat and back cushions using Sunbrella® outdoor fabrics. The range is available in a choice of two colours, dark 'Java' or soft grey 'Driftwood'. The Kirar range consists of numerous combinations of standard and modular system furniture.

Laura's Tête-à-Tête Daybed was designed to share a lazy afternoon, with generous proportions and a thick seat cushion. It can easily be the focal point of your outdoor space, lined with comfy scatter cushions, it is simply – superb.

Kirar features:

- Designed by the renowned New York designer Laura Kirar
- Modular deep seating allows for creative and personal arrangements
- Solid core weave material is highly resistant to fading
- Minimum of maintenance
- Original Triaxial® weave pattern available in two colourways
- Fully welded powder-coated aluminium frame
- Cushions use Sunbrella® fabric, made from a durable, 100% solution-dyed acrylic fibre
- 5-year frame guarantee for residential use (see warranty for cushions)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

requires: 1 x 800108 Kirar Middle Modular Cushion

Woven Collection

Designed for Barlow Tyrie by **Laura Kirar**, the New York based founder and creative director of LAURA KIRAR Design.

The Kirar range consists of a deep seating group, dining group, Sun Lounger and the Tête-à-Tête Daybed, all available in two colours, Java and Driftwood.

Drawing inspiration from Japanese basket weaving, Laura has created a unique triaxial weave pattern that sets a new design benchmark for the outdoor industry.

With sumptuous curves and generous proportions the Kirar Collection delivers both comfort and beauty.

The design has subtly married traditional weave techniques with modern aesthetics to create, what will surely become, a contemporary classic.

606700_606750 – Kirar Tête-à-Tête Daybed Deep Seating (700 Java or 750 Driftwood)

Parasols & Pavilions Collection

Our parasol canopy fabric is made from Sunbrella® 100% solution-dyed acrylic yarn. The fabric has a Teflon® coating applied to the yarn which helps disperse water. Although Sunbrella® fabric will not mildew or mould, we recommend that the canopy is cleaned regularly to prevent the accumulation of dirt on the fabric.

All our parasols will close over our dining tables and must be used with a rigid base for safety, even when placed through a table. To ensure the parasols will close when used in a dining table, some large parasols have a telescopic pole. This ingenious design raises the pole top when the parasol is being closed, allowing it to fit over the table top.

Pavilions are semi-permanent structures made from anodised extruded aluminium, the roof and corner curtains are awning-weight Sunbrella®, which is made from 100% solution-dyed acrylic. For areas that experience heavy snow fall, do not allow snow or ice to accumulate on the Pavilion roof as this might cause structural damage.

Product care:

Barlow Tyrie furniture can be left out all year round however as part of a maintenance programme we recommend the use of 'Barlow Tyrie Teak Cleaner' (4TC) to clean your furniture at the end of the summer and again when they are to be used.

To clean and maintain your cushions and parasols, we recommend you use 'Barlow Tyrie Fabric Cleaner' (4FC) which will remove dirt, grease, oil and mould. After cleaning we recommend using 'Barlow Tyrie Fabric Weather Guard' (4FWG), which protects the fabric from the ageing effects of weather. We recommend you leave the cushions and parasols cover on the product during the cleaning process. We suggest you clean your cushions and parasols before you store them in a dry, well-ventilated area.

See page 188 for Sunbrella® canopy awning-weight fabrics used on our Barlow Tyrie Collections or online at: www.barlowtyrie.com/

Sail Cantilever, Bases and Sunshade

Our Sail range includes two sizes of Cantilever parasol and two sizes of Sunshade that are designed with the strength to match their size and an attention to detail and design that is obvious. We use reinforced anodised aluminium, stainless steel and nickel plated brass fittings to ensure the highest standard of quality. We make all our parasol canopies using durable Sunbrella® fabric, which is woven from 100% solution-dyed acrylic, colour-fast fibre.

Our two retractable Sunshades (with optional side curtains) are for large seating arrangements and ideal for creating your own shaded alfresco dining area.

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Pavilions

Pavilions are excellent for large outdoor seating arrangements and ideal for creating your own shaded alfresco dining area. Our pavilions are heavy-duty, semi-permanent structures that will last for years. Frames are made from stamped aluminium and finished with a durable powder-coated finish. Roof fabric and corner dressing are made with Sunbrella® awning-weight solution-dyed acrylic fabric for extreme durability.

Pavilions are sold with frame, roof fabric and four corner dressings with tiebacks. The Cabrio model has a novel opening roof, perfect when you want to let the sunshine in. Optional curtains are available. A mesh curtain provides a see-through shield from the elements and bugs. Curtains are available that give maximum protection, complete privacy and can be fully closed with a zip. You can draw these curtains on just one or two sides to provide shelter from a wind or strong sunshine. A perfect way to add ambience to your 'entertaining arena' is with a sheer, light screen that adds movement in the breeze or can be used to shield from the sun or breeze.

Pavilion ground fixing components that allow you secure the pavilion to a wood decking or concrete floor are available. We also offer the Permo® Lock anchoring system, which is the recommended method that offers a strong, permanent solution for anchoring your shelter against the wind.

Pavilions features:

- Includes roof frame, corner dressing and ties
- Pavilions are semi-permanent structures of the highest quality
- Permo® Lock anchoring system available
- Frame is made from heavy duty aluminium with a durable powder-coat paint finish
- Roof and corner dressing made of Sunbrella® awning weight fabric for extreme durability
- 3-year guarantee for residential use (see warranty)

See page 198 for Barlow Tyrie care products and page 184 for cushion colours used in our Collections.

Colours & Materials

Barlow Tyrie is renowned for working with teak, however we are constantly searching for new and innovative materials to introduce that will bring colour, variety and texture to our outdoor furniture.

The collection of new materials that we now work with is extensive, these materials give us the opportunity to offer a broad selection of furniture and accessories. Interesting materials and combinations give life and functionality to the products.

See page 198 for Barlow Tyrie care products and page 184 for cushion fabrics or online at: www.barlowtyrie.com/

Cushion colours

Our cushions are manufactured using Sunbrella® a colourfast fabric that is made from a durable, all weather, 100% solution-dyed acrylic fibre. Teflon® coated the fabric repels water however cushions should not be left out in heavy rain for prolonged periods. If cushions do become saturated then place them on edge until dry. We also offer selected colours in Sunbrella Rain® which has an additional barrier finish making the fabric waterproof and the surface of the cushion quick drying. Please note that although the fabric is waterproof, zippers and venting will allow ambient moisture from the atmosphere to enter the cushion. Please do not store cushions if they are wet.

There is an additional charge for Sunbrella Rain® fabrics. In the USA cushions are made to order, to view all available US Sunbrella® fabrics, please go to the cushion section: www.teak.com/usa. Cushions are priced by grade with different fill and welt options available. Customer's Own Material (COM) orders are welcome, please email your enquiry to: USsales@teak.com.

When ordering cushion colours, please add the correct Suffix to the Product Code. For stock colours, please see our current selection and note suffix for: (S) = Standard and (V77) = Waterproof. If the Waterproof option is required, please add a 'V' to the colour code, i.e. Jockey Red = 5403V.

Please note: (S) and (V77) suffix codes do not apply in the USA.

Product care:

To clean and maintain your cushions, we recommend the use of 'Barlow Tyrie Fabric Cleaner' (4FC). After cleaning please use 'Barlow Tyrie Fabric Weather Guard' (4FWG). This reduces the ageing effects of weather on the fabric. It is easier to leave the cushion covers on during the cleaning process. Cushions that are cleaned before storage will be ready and waiting for the sun to shine, please do not store cushions when they are wet.

How do I clean cushions?

One of the best ways to keep our fabrics looking good, and to delay deep or vigorous cleaning, is to properly maintain the fabrics. This can be accomplished by simply brushing off dirt before it becomes embedded in the fabrics, wiping up spills as soon as they occur or spot cleaning soon after stains occur. A stain repellent is applied to the fabric, although it will withstand vigorous cleaning, if necessary.

Cushion colours depicted may be different in the North America, as Sunbrella® fabrics are available in a wider selection of colours and cushions are made to special order – see USA website for more details.

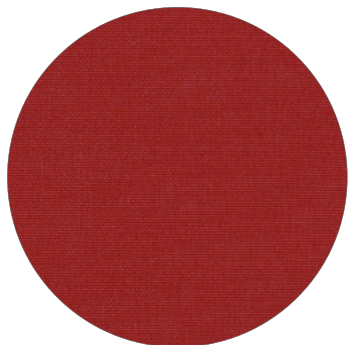

For additional information on this range, please see:

.J100 Edgar Coral (S)

Are your fabrics waterproof?

Yes – we have cushions in selected colours with an additional Sunbrella® 'Rain' barrier finish which makes the fabric waterproof and quick drying. The fabric simply has a waterproof backing applied which has an additional charge for Sunbrella Rain® fabrics.

NB: Please note that the cushion covers are designed to provide maximum weather protection with comfort and breathability. The zippers and vents are not waterproof but are protected from rain water by a folded flap. The flap needs to be facing down to allow any rain water to flow over the top and avoid entering the cushion via the vent or zipper.

Parasols & Pavilions

Both parasols and pavilions (roof, full curtains and corner dressings) are manufactured from Sunbrella® canopy fabrics, a durable, 100% solution-dyed acrylic. With the parasol fabric colour locked deep inside the yarn, it gives excellent resistance to the fading often caused by sunlight and cleaning.

Pavilions come with optional full fabric curtains, sheer panels and zipped mesh curtains (standard supply is frame, roof and corner dressings) and these other items are extra. Pavilions have a colour choice (like parasols) and the Sunshade comes in .302 'Canvas' only.

For additional information on this range, please see:
<http://www.teak.com/english/patio-furniture-parasols.shtml>

9011220.4781 – Pavilion 3.66m x 6m (fixed roof frame)

.302 Canvas (Parasol)

Parasol fabric

Our parasol canopy fabric is made from 100% solution-dyed acrylic yarn, with the colour locked deep inside the yarn to give excellent resistance to the fading often caused by sunlight and cleaning. A stain repellent has been applied to the fabric to make the cleaning process easier.

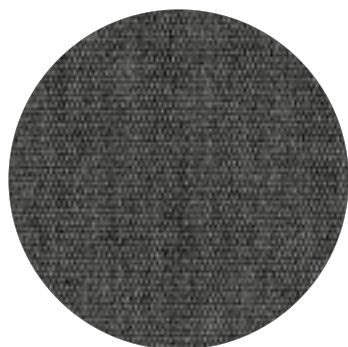

Both Napoli and Sail canopies are available in the 'Canvas' only (product ref. no.: .302). Special order canopy are available in the USA – please enquire at: ussales@teak.com

Pavilion fabric

Pavilion fabrics are available in 3 colours.

Colour codes: .1275 = Stone; .4642 = Oyster; .4781 = Chocolate

Please add fabric colour code suffix to the pavilion product ref. no. – e.g. 909050.1275

.1275 Stone (Pavilion)

.4642 Oyster (Pavilion)

.4781 Chocolate (Pavilion)

=4SA30C.302

Sling, cord & powder-coated aluminium frame

Aura, Cayman, Equinox, Horizon, Mercury, Monterey and Quattro

All slings are made from Textilene®, a woven PVC coated polyester yarn. This material guarantees that our slings are strong, durable, mildew resistant and require the minimum of maintenance. After rain a light tap and any water simply drops off. The cord is woven from Olefin (a key feature is its light fastness) and Textilene® making it rugged with a soft hand.

Aura, Cayman, Piazza and Titan (Rustic Teak)

Barlow Tyrie use an environmentally friendly process to clean and etch the aluminium before applying a high quality powder-coat, which combines a stunning visual effect with long service and the minimum of maintenance.

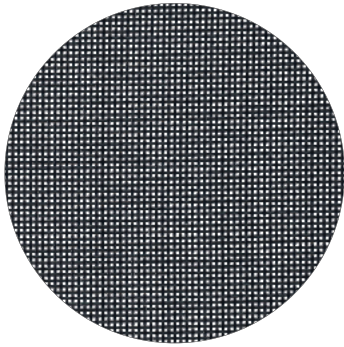

For additional information on this range, please see:
<http://teak.com/english/patio-furniture-swatches.shtml>

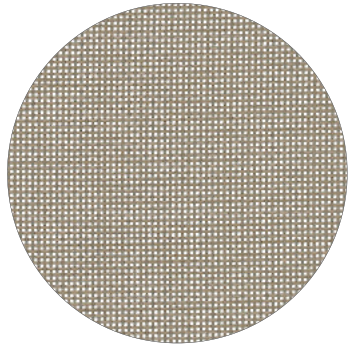

1CYA.01.511 (sling detail)

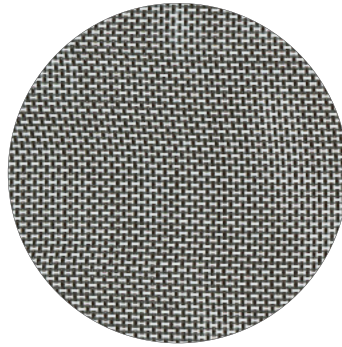

Note: The Aura and Cayman Ranges are **not** available in Metallic (.06) frame.
The Titan (Rustic Teak Collection) is only available in Black (.08) frame.

Ceramic & High Pressured Laminate

Ceramic table tops are ideal for outdoors, scratch proof, weather resistant and attractive. High Pressure Laminate (HPL) also has a wipe clean surface and good colour stability. HPL table tops are used on both the Equinox (e.g. 2EQC18.700) and Quattro ranges. Please note that the Mercury serving table uses a ceramic top inlay that is dark 'slate' grey in colour.

For additional information on this range, please see:

<http://www.teak.com/english/patio-furniture-cushions.shtml>

The aesthetic properties

The ceramic sheets we use are unusual, in that they are very large making them ideal for one-piece seamless laminate table tops. Ceramic tops have lots of advantages, such as, colour fast and easy to clean. They are very functional but being a 'high-fired' Italian ceramic they also have a lot of design detail. Using such large slabs to make the table tops gives them a clean uncluttered appearance plus the patterns, colours and textures created on the surface of each tile adds depth to each piece.

How do I care for ceramic surfaces?

Ceramic resists scratching, organic and inorganic solvents, disinfectants and detergents. It can be easily cleaned without affecting the surface characteristics. We recommend using no more than soapy water and a sponge to maintain the aesthetic and technical qualities for this exceptional material.

Innovation

The ceramic 'high-fired' sheets we use as table tops and work surfaces were originally developed as building cladding and are unusual in that each tile is over 3 meters long. Designed to ensure the product surface evenness and fired in an electric kiln at temperatures over approx. 1220°C. Two ceramic sheets each with a thickness of 3mm are laminated onto a fibreglass core. These fine sheets are then cut, profiled and polished by hand to give a smooth soft edge.

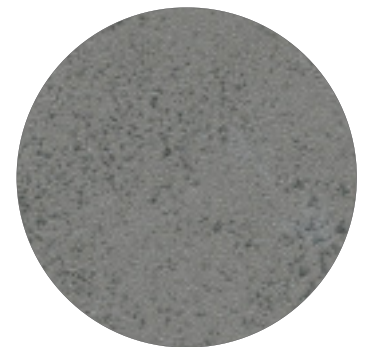

2EQX36.800

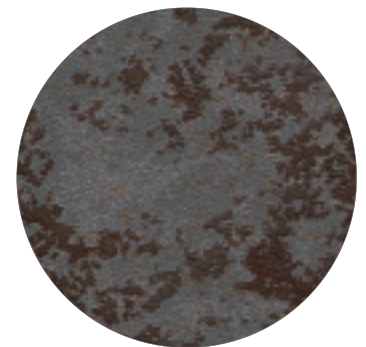

.800 Ash (Ceramic)

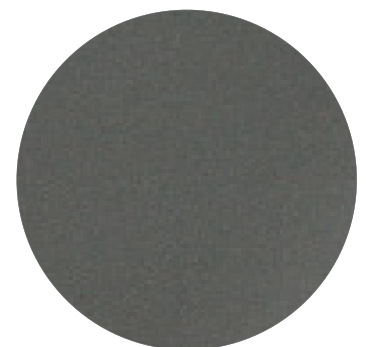

.803 Ivory (Ceramic)

.804 Storm (Ceramic)

.805 Oxide (Ceramic)

.700 Dark 'Slate' Grey (HPL – Equinox, Mercury and Quattro)

Weave & Glass tabletops

Our woven ranges have all been designed for minimal care and maintenance with the synthetic material hand-woven over a powder-coated aluminium frame. The finished product is strong and highly resistant to the rigours of an outdoor environment.

Barlow Tyrie furniture can be left out all year round however as part of a maintenance programme we recommend the use of 'Barlow Tyrie Textilene® & Woven Non Foam Cleaner' (4WTC), to keep your furniture in optimum condition.

All the woven tables have tempered glass tops and the Mercury dining table tops are acid etched tempered glass with a matt finish, both of which are easy to clean.

For additional information on this range, please see:
<http://www.teak.com/english/patio-furniture-cushions.shtml>

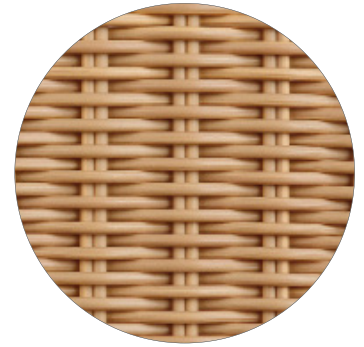

Java – Flat (Arizona Range)

Java – Flat (Savannah Range)

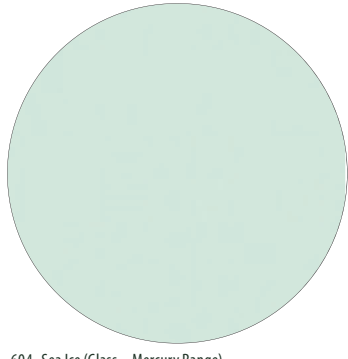

Java – Round (Dune Range)

Straw – Round (Dune Range)

Note: the Savannah Range table tops use natural clear tempered glass only.

.604 Sea Ice (Glass – Mercury Range)

.605 Platinum (Glass – Mercury Range)

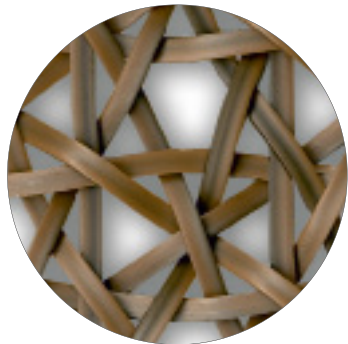

.606 Charcoal (Glass – Mercury Range)

Tables in the **Laura Kirar Collection** use natural clear tempered glass tops on the Driftwood colour weave tables and brown tinted tempered glass tops on the Java weave tables (as illustrated: 606605 Coffee Table 110cm Circular).

Java – Outer weave colour (Kirar Range)

Java – Inner weave colour (Kirar Range)

Driftwood – Outer weave colour (Kirar Range)

Driftwood – Inner weave colour (Kirar Range)

Plaques, Inscriptions & Security

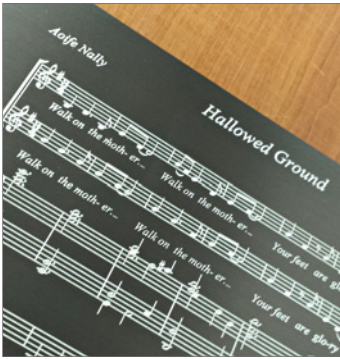

The Barlow Tyrie inscription service may be used with most of our teak armchairs, benches and seats. The inscriptions are normally placed on the top-rail, but equally this could be on the lower-rail next to the chair seat or even a table top. The carving is in a traditional serif typeface using a 'V'-shaped cut, which allows the inscription to be easily read from the side as well as from immediately in front. This '3D-lettering' has an advantage over a standard 'straight-cut' letter that does not show as well.

As an alternative to carved inscriptions, we also offer bronze plaques with lettering set in cream vitreous enamel. A choice of lettering and font styles are available. The finished plaque is then recessed into the face of the rail and held in position using a special hidden vandal-proof fitting.

For additional information on this range, please see:
<http://www.teak.com/english/seat-security-fasteners-range.shtml>

Plaques can allow you to be creative with your eternal message, as illustrated with the 'musical notes' plaque. You can add a celebratory message for an anniversary or a wedding gift. A choice of lettering and font styles are available – please enquire. All plaques would need to be quoted as part of our bespoke service.

1R018_Bronze plaque using a special hidden vandal-proof fitting

3D-Carved inscription_Top rail of bench

A set of four polished brass seat security fasteners to prevent unauthorised movements of seats in public areas. Supplied with tamper proof fixings for concrete, paving and wood.

Galvanised seat security fasteners for setting into concrete for all teak seat models to prevent unauthorised movements of seats in public areas.

Care products

Although made to withstand the rigours of an outdoor environment, regular care and maintenance is required to preserve the fine appearance of your furniture. We offer care products for all the furniture we supply that are easy to use and very effective. An annual or twice yearly maintenance regime will be more than adequate in most instances and maintain your furniture in prime condition; however in coastal and chlorinated environments we recommend in addition to a maintenance programme occasionally rinsing your furniture with fresh water.

For additional information on this range, please see:
<http://www.teak.com/english/care-products-range.shtml>

4AC – Aluminium Cleaner

Easily removes dirt and grease, oil, pollutants and mould from the furniture. Supplied with its own special applicator pad.

Contains: 1 litre/33oz

4TCG – Teak Colour Guard

Maintains the golden brown colour of new teak. Supplied with its own special applicator pad.

Contains: 1 litre/33oz

4FC – Fabric Cleaner

Removes dirt and grease, oil, pollutants and mould from our cushions. Supplied with its own special applicator pad.

Contains: 1 litre/33oz

4TSG – Teak Stain Guard

Forms an invisible layer to protect your teak from everyday stains such as butter, oil and red wine, making the cleaning of accidental spills an easy task. Supplied with its own special applicator pad.

Contains: 1 litre/33oz

4FWG – Fabric Weather Guard

Protects the fabric and slows down the aging effects of weathering. Supplied with its own special applicator pad.

Contains: 1 litre/33oz

4TO – Teak Oil

Traditional method of retaining original colour of new teak.

Contains: 500ml/16oz

4SSCG – Stainless Steel Clean & Guard

Cleans stainless steel and leaves a fine layer of Teflon® on the surface to help prevent the build up of contaminants. Supplied with its own special applicator pad.

Contains: 1 litre/33oz

4WTC – Textilene® & Woven Non Foam Cleaner

A non-foam cleaner that maintains woven furniture and Textilene® without unsightly residue remaining after the cleaning process. Supplied with its own special applicator pad.

Contains: 1 litre/33oz

4TC – Teak Cleaner

Cleans and restores discoloured, dark grey teak. Contains brightener ingredients which will restore your teak to its original colour. Supplied with its own special applicator pad.

Contains: 1 litre/33oz

4WS – Anti Wasp Solution

Deters wasps from defacing the surface of weathered wood.

Contains: 1 litre/33oz

Note: not available in the USA

Frequently Asked Questions

Which materials does Barlow Tyrie use ?

We combine the highest quality materials, with superior craftsmanship and design to produce our furniture, resulting in worldwide recognition of our brand as representing the best in outdoor furniture. To our renowned range of the highest grade teak furniture we have combined: stainless steel with Textilene® and cord, powder-coated aluminium and synthetic woven materials, to produce contemporary designs to the same high standard.

What is the Forest Stewardship Council® (FSC®) ?

The Forest Stewardship Council® is an international, non-profit association whose members include environmental, social groups, progressive forestry and timber related companies who are working together in order to improve forest management worldwide.

The trademark of the FSC® on a product indicates that the wood used to make it comes from a source that has been certified by the FSC® as being well managed and meeting the environmental, social and economic standards that have been set by the FSC®.

The FSC® certificate is only granted to organisations following an annual audit to confirm their compliance with FSC® standards. Our audit is performed by an FSC® accredited Certification Body partner of the Rainforest Alliance and our Chain of Custody code is NC-COC-014404. Trademark licence code (FSC-C007974).

Does Barlow Tyrie produce any FSC® certified furniture ?

Yes. Selected products displayed in store and held in stock are FSC® certified, as are the stocks held at Barlow Tyrie on the behalf of John Lewis. Other products, which may be ordered from the Barlow Tyrie range may not be FSC® certified.

What is the teak weathering process ?

Over a period of time in an outdoor environment teak will weather to a beautiful silver grey. The length of time this takes will vary with exposure to different climatic conditions. (See our images to compare how the weathering turns the new teak to a beautiful silvery-grey.)

Why do occasional cracks appear on my furniture ?

Teak is a natural material and as such fine cracks in the end grain of components, e.g. legs and arms, may appear and then disappear with variations in the weather and the consequent change in the moisture content of the wood. Such fine cracks are normal, especially in heavier components, and will not affect the life or serviceability of your furniture.

Do I need to store my furniture during the winter ?

No, Barlow Tyrie teak furniture can be left outdoors, uncovered, all year round. If you choose to cover your furniture outdoors during the winter you should use a material that allows the wood to breathe.

Teak

What are the properties of teak ?

Teak is a deciduous hardwood tree from managed plantations, it does not come from tropical rainforests. Teak has a naturally high oil content which makes it both stable and resistant to rotting when exposed to climatic extremes. For centuries these special qualities have made teak the preferred choice for marine decking and construction, hence it is considered the premium timber for outdoor furniture.

Teak wood will naturally weather from golden brown to a silver grey colour. We recommend the following range of our Barlow Tyrie products to care for and maintain your Teak furniture. For additional information on this range, please see:

<http://www.teak.com/english/care-products-range.shtml>

- **Teak Cleaner** (4TC) – will quickly remove accumulated dirt.

If you live in the UK and wish to maintain your furniture using our care products, but do not wish to do the work yourself, then we recommend you contact www.teakcare.co.uk who can provide a regular or one-time service according to your needs.

- **Teak Colour Guard** (4TCG) – will maintain the golden brown colour of new teak by using UV inhibitors to prevent the natural greying process and pigment enhancers to help maintain the natural colour of teak.
- **Teak Stain Guard** (4TSG) – forms an invisible layer to protect your teak from everyday stains such as butter, oil and red wine, making the cleaning of accidental spills an easy task.

Do I need to oil my teak furniture ?

Treating with teak oil or other preservatives is not necessary, it will not extend the life of your furniture and is purely cosmetic. We do not recommend oiling your furniture.

Will the metal fittings on my furniture last as long as the teak ?

We only use the best marine quality solid brass and Stainless Steel on our furniture. Neither of these will rust nor deteriorate with age.

Do I need to use a base if I am locating a parasol through a dining table ?

Yes, all parasols must be located in the recommended parasol base for safety reasons. We supply our standard parasol base for when you wish to use a parasol through a dining table, a free standing base is available for use without a table. Standard parasol plates are available for when a parasol is required for the Equinox pedestal tables.

Can we use any of your chairs with any of your tables ?

Our dining chairs and tables are made to a standard that gives the correct distance between the seat and the table top, which ensures you are comfortable when eating. You can confidently purchase any of our chairs with any of our tables depending on your design preference and the number of people you wish to seat.

For additional information, please see:

<http://www.teak.com/english/faq.shtml>

Stainless Steel

What are the properties of stainless steel ?

We use two grades of stainless steel; 316 Grade, commonly known as 'marine grade' and 304 Grade, the most commonly used for garden furniture. 316 and 304 Grades are both suitable for use in inland locations, but 316 Grade is suited for most coastal areas and marine environments.

304 and 316 Grade should not be used in heavily chlorinated indoor environments. If you have any questions or concerns about which grade is best suited for your area, please contact customer service. We recommend the following Barlow Tyrie product to care for and maintain your Stainless steel furniture.

- **Stainless Steel Clean & Guard (4SSCG)** – Cleans stainless steel and leaves a fine layer of Teflon on the surface to help prevent the build up of contaminants.

Aluminium

What are the properties of aluminium ?

Aluminium is lightweight and for this reason, we have included it in our range. The aluminium we use is 'virgin aluminium', meaning it is not reclaimed from scrap, making it stronger and longer lasting. We powder-coat the aluminium to prevent oxidation and ensure it gives long service. We recommend the following Barlow Tyrie product to care for and maintain your Aluminium furniture.

- **Powder-Coated Aluminium Cleaner (4AC)** – Easily removes dirt, grease, oil, pollutants and mould.

Woven

What are the properties of synthetic weave ?

Our synthetic material is colour fast, exceptionally strong and completely resistant to sun and rain and requires the minimum of maintenance. For our woven/wicker furniture to ensure it gives long service, we recommend the following Barlow Tyrie product to care for and maintain your Woven furniture.

- **Textilene® & Woven Non Foam Cleaner (4WTC)** – Easily to use non-foam cleaner that maintains woven furniture and Textilene® without unsightly residue remaining after the cleaning process.

Warranty

Materials and products have varying periods of warranty and guarantee for residential use (with warranty limitations excluding cushions) and does not cover damage caused by misuse. For more UK and USA definitive information please see:

http://www.teak.com/documents/warranty_UK.pdf

http://www.teak.com/documents/USA_residential.pdf

http://www.teak.com/documents/USA_commercial.pdf

See page 198 for Barlow Tyrie Care Products, follow instructions for usage. For further details, please view our products online: <http://www.teak.com/english/care-products-range.shtml>

Please note that when moving furniture, and for delivery purposes, large items of furniture can be very heavy. Our delivery is a trade service to the vehicle tailgate only and you will be responsible for arranging personnel to carry and position the furniture. If delivery is to a private address, prior to delivery you must assess the access for

sufficient width, height and manoeuvring room for a commercial furniture lorry and advise the stockist if it is unsuitable. We try to accommodate the wishes of our customers.

Please make sure when ordering from the range that you are adding the correct suffix code to the Product reference code. The suffix denotes: frame + sling + table top material colour. By correctly adding the code suffix we can process your order without hesitation. e.g. Product code = [1AUA] + [.01] + [.500] + [.800].

Furniture covers

Our furniture covers are made using WeatherMAX-LT®, a modified high UV resistant polyester fabric offering superior strength and durability with long-term colour retention. This fabric is the industry's most balanced and cost-effective fabric available for outdoor applications requiring higher water repellence and excellent breathability. The perfect choice for outdoor furniture covers where lightweight and ease of storage offer an advantage.

These lightweight, one-way breathable covers allow trapped moisture to disperse, but prevent rain and dust from penetrating. A unique fastening ensures a secure fit. The life and good looks of the cover depend a great deal on the way it is used and how it is cared for. The covers are easy to put on, remove and can be stored in their own pouch when not required.

Helpful Hints

If the furniture has any sharp corners or edges, place foam rubber on the sharp edge to reduce risk of puncture or abrasion of the covers. For table and chair combinations, placing an object, such as a beach ball, under the centre of the cover can help with water drainage. When covering the Dune day bed and ottoman please ensure that the ottoman and cushion are placed on top of the base cushion before covering.

Note: Covers for standard dining groups are designed to cover the furniture with the chairs not under the table. Please allow 4–6 weeks delivery.
